South Carolina's Assisting, Developing, and Evaluating Professional Teaching (ADEPT) system is designed to promote teacher quality in two ways. First, through the assistance and professional development processes, emphasis is placed on continuous quality improvement. Secondly, during the formal evaluation process, the focus shifts to quality assurance. In combination, these two components help ensure that teachers in South Carolina are caring, competent, and effective.

ADEPT is a success-based system. It is expected that, given adequate and appropriate preparation and support during their teacher education and induction programs, most teachers will meet the formal evaluation criteria and will continue to demonstrate high levels of performance throughout their teaching careers.

The following tables summarize the ADEPT evaluation results for teachers at each contract level. Explanations of the teacher contract levels and the ADEPT processes appear later in this report. Teachers who are employed under a letter of agreement do not fall under the ADEPT system; therefore, information regarding these teachers is not included in this report.

Data for this report were submitted electronically by school districts via the ADEPT Data System (ADS) beginning with the 2002–03 academic year. The Professional Certified Staff (PCS) system was used to collect these data prior to 2002–03.

**Explanation of Teacher Contract Levels and ADEPT Processes**

**Induction contracts** are issued to teachers who hold valid South Carolina teaching certificates and have less than one year of teaching experience. During this induction year, beginning teachers participate in activities designed to facilitate their successful transition into professional practice. Novice teachers also receive support, assistance, and feedback from mentors, building administrators, and other experienced and novice teachers.

**Provisional contracts** were phased out during the 2004–05 school year and replaced with diagnostic assistance during an annual-contract year, per the amended ADEPT statute (S.C. Code Ann. § 59-26-40).

**Annual contracts** are issued to teachers who have completed an induction-contract year. Teachers may have up to four annual contracts. The following ADEPT processes apply to annual-contract teachers:

- ◆ *Formal evaluation.* During the formal evaluation process, districts must adhere to standardized procedures (e.g., multiple evaluators; multiple sources of data; collection of data over time; documentation of evidence; maximum validity, reliability, and freedom from bias) in order to make summative, consensus-based judgments about teachers' performance with regard to the state's professional teaching standards (i.e., ADEPT Performance Dimensions).

Teachers must successfully complete a formal evaluation at the annual-contract level in order to be eligible to advance to a professional teaching certificate.

Teachers who fail formal evaluation for the second time at the annual-contract level are automatically suspended from teaching in any public school in this state for a minimum of two years. Additionally, these teachers must complete a state-approved program of remediation in order to have their teaching certificates reinstated.

- ◆ *Diagnostic assistance.* Annual contract teachers are eligible to receive one year of diagnostic assistance, if needed. The purpose of diagnostic assistance is to support promising teachers who require additional help either after their induction year or after their first unsuccessful formal evaluation. Additionally, teachers from out of state or from a nonpublic school setting who have more than one year of teaching experience are eligible to receive a year of diagnostic assistance, at the discretion of the school district, in order to become familiar with the district and/or the ADEPT system prior to their formal evaluation. During the diagnostic assistance year, mentors, administrators, and peers provide support, assistance, and/or feedback tailored to meet the specific needs of each teacher.
- ◆ *Informal evaluation—also known as goals-based evaluation, or GBE.* During the GBE process, teachers collaborate with administrators to develop, implement, and evaluate individualized goals and professional development plans. At the annual-contract level, GBE applies primarily to alternative certification (PACE) teachers, career and technology education (CATE) teachers, and international teachers who have successfully completed a formal evaluation during a previous annual-contract year but who have not yet completed all other requirements for a professional teaching certificate.

**Continuing contracts** are issued to teachers who have successfully completed all requirements for a professional teaching certificate. Teachers at the continuing-contract level have full procedural due process rights relating to employment and dismissal. All teachers employed under continuing contracts must be evaluated on a continuous basis; the evaluation may be formal or informal (refer to the explanations above), at the discretion of the district, based on each teacher's needs and previous performance.
